**Database - Wikipedia**

*Fri, 14 Sep 2018 23:31:00 GMT A database is an organized collection of data, stored and accessed electronically. Database designers typically organize the data to model aspects of reality in a way that supports processes requiring information, such as (for example) modeling the availability of rooms in hotels in a way that supports finding a hotel with vacancies.. The database management system (DBMS) is the software that ...*
