### Bayesian network - Wikipedia

*There are several equivalent definitions of a Bayesian network. For all the following, let  $G = (V, E)$  be a directed acyclic graph (or DAG), and let  $X = (X_v), v \in V$  be a set of random variables indexed by  $V$ . Factorization definition.  $X$  is a Bayesian network with respect to  $G$  if its joint probability density function (with respect to a product measure) can be written as a product of the ...*
