General and Comparative Endocrinology - Journal - Elsevier

Mon, 17 Sep 2018 21:47:00 GMT *General and Comparative Endocrinology* publishes articles concerned with the many complexities of vertebrate and invertebrate endocrine systems at the...

Explore Your Inner Animals | HHMI BioInteractive

Thu, 20 Sep 2018 07:39:00 GMT A close look at the human body reveals structures that we inherited from distant animal ancestors. Take, for example, the pattern of the bones in our arms—they can be traced back to fossilized fish that lived at the time that life first made the transition from water to land. Other structures that ...
